

MEET THE LEADERS SERIES

Great solutions providers do not simply appear out of thin air. There is always a driving force, a personality, and a vision that stand behind every successful vendor. The leadership that allows companies to innovate and create great solutions is the key element in creating and maintaining excellence in the knowledge management software world.

KMWorld recognizes the irreplaceable value of the people behind the company. And we want to find out more about them. How did they get here? What is their vision? What are their core business values? What keeps them up at night? What makes them tick?

Through sit-down interviews and behind-the-scenes research, KMWorld delves into the lives and accomplishments of the thought leadership behind the knowledge management market. We focus on specific marketspaces, (see below) so the reader can get an apples-to-apples comparison of the talented and effective leadership that supports our industry.
